

## BEAUTY IS ART: PART TWO

**Makeup truly is an art.** Much like the clothes you wear and the music you listen to, your makeup can say a lot about you as a person – or it may simply say something about the mood you're in today. Your face can be your blank canvas, and your makeup can be your paints, pencils and brushes. Check out these NEW color combinations as inspiration for your next work of art!

### Teal We Meet Again

Take a bold twist on the classic smoky eye with bright pops of teal paired with pretty pink lips.

### Orange You Glad

Go for daring and beautiful contrast – and a truly unique look – by pairing bright orange with bold blue.

### Winner's Circle

Pair subtle-yet-striking gold eye makeup with glossy red lips for a look that steals the show for any skin tone!

### Striking Violet

Pretty pink paired with pops of purple make a perfect, girly date-night look.
